

Team Assignment 1 (100 points) - Agile WorkflowA. Instruction:

1. Use the Agile Workflow Form (in webpage) for this assignment.
2. To complete the assignment, each team must start from the final product it expects to deliver.
3. Now, as the customer or sponsor of the product, divide the final product in to a few pieces, each of which would be a working hardware piece, that once completed and integrated one at a time would lead to the final product.

B. Score Distribution and Rubric:

Agile Workflow (100)	
100 pts	Each sprint increment, as seen by the customer/sponsor, is externally tangible hardware product, and the next one contains the previous one, leading to the final product.
70 pts	Each sprint increment, as seen by the customer/sponsor, is externally tangible hardware product, but the next one does not contain the previous one.
50 pts	Final product and each incremental hardware pieces are not connected.

C. Submission: One submission from a team is required with the following file name: **TeamName_Agile.xxx** .

D. Submission due: Check the webpage
