Weekly Project Implementation Plan

Senior Design II
Electrical Engineering and Compute Science
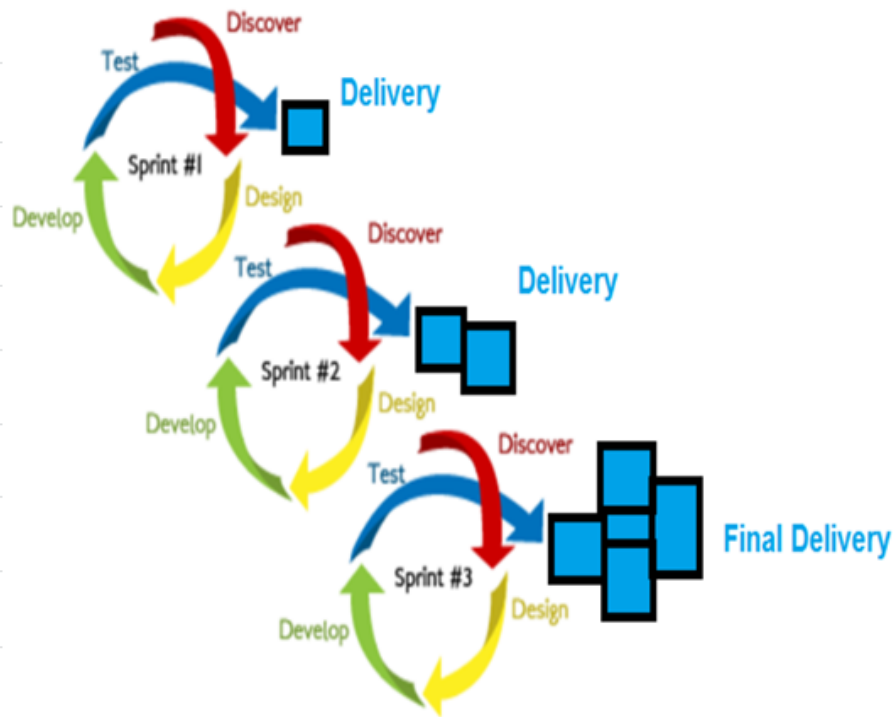

Product Development Plan

- ## Agile Management workflow
  - Risk reduction/management in final product delivery
  - Customer's point of view
  - Project manager's point of view
  - Product focus (each working piece)
    - Intermediate product
    - Final product

- ## Development phase of the product
  - Developer's point of view
  - How to develop and complete the intermediate (working piece) product
  - Task focused
    - Weekly task distribution
    - Resource allocation
    - Assessment of the task completion
    - Risk identification and management

Agile Workflow Form

EECE404 Senior Design II
404 Agile Workflow Form

Team Name

Final Product

Starting Date of Week	Sprint #	Increment (or intermediate working component/piece/hardware)
1/30/2024		
2/5/2024	1	
2/12/2024		
2/19/2024		
2/26/2024		
3/4/2024	2	
3/11/2024		
3/18/2024		
3/25/2024	3	
4/1/2024		

- EECS Day 2024: (F) April 12 @ Innovation Space

3

Product Implementation Plan – Team Activity

- List of tasks to complete/deliver each increment
