

Team Assignment 1 (100 points) - Agile WorkflowA. Instruction:

Use the Agile Workflow Form available in the class website for this assignment.

Note that the focus is to complete a partial working product in each sprint and to plan weekly development tasks to deliver the partial working product. The former is product/customer's perspective and the latter, task/developer's perspective.

First, fill the sprint/increment boxes. Then, fill out the tasks and activities for each week of the 3-week sprint period.

B. Score Distribution and Rubric:

	Sprint/Increment	Weekly Development Tasks
50 pts	Each increment is a partially working product, and when added to the next increment, leads to the final product.	Weekly tasks stated are <u>appropriate and relevant</u> in completing the stated increment.
30 pts	Each increment is a partially working product, but when added to the next increment, may not lead to the final product.	Weekly tasks stated are <u>not</u> quite relevant in completing the stated increment.
10 pts	Each increment is a partially working product, but not leading to the final product.	Weekly tasks stated are completely <u>irrelevant</u> in completing the stated increment.
0 pt	No partial working product	No meaningful tasks and activities

C. Submission: One EMAIL submission from a team is required with the following file name: **TeamName_AgileWorkflow.xxx** .
