

Peer Evaluation Form
Department of Electrical and Computer Engineering
Howard University

Date: _____

Project Title: _____

Your Name: _____

Evaluation Guide (Read Carefully):

- For each of the 10 items below**, each project team receives \$500 per person for every item (or row). For example, if a team has two members, the team receives $\$500 \times 2 = \$1,000$ for every item. A three-member team receives \$1,500 per row of items.
- The evaluator now distributes, for **each row**, the team's money (assigned for each item) to each of the members (including him/her-self) by the relative performance of the members of the item. Therefore the sum of the money distributed to each member at each row must be the same as the money the team receives for each item (or row).
- And example is shown below.

		Write each member's LAST name below (including yours)		
		Doe	Joe	Koe
1	Works cooperatively to complete team assignments	750	250	500
2	Prepares for, arrives on time, and attends meetings	1000	100	400
3	Makes positive contributions to meetings	500	500	500
