Project Implementation and Evaluation Plan
Electrical Engineering and Computer Science
Howard University
Senior Design Class

Date:					1/23/2018
Team Name:	Spaceship Technologies				
Project Title:	Deliveroid				
Team Members:	Shelton Allen				
	Conrad Blash				
	Jonathan Goberdhan				
Month	Week No	Tasks		Member in Charge	Monthly Deliverables
Jan	1				CAD design
	2				
	3				
	4	Constructing CAD design of frame		Conrad	
Feb	1	Measure hall dimensions/ Code 2D map		ALL	Frame Implemented network features
	2	Implement network features using Arduino Uno and ESP8266 module		Shelton	
	3	Build deliveroid frame		Conrad	
	4	Build deliveroid frame		Conrad	
Mar	1	Code RFID/Ultrasonic Sensor		ALL	Complete Code and assembled Deliveroid
	2	Make coding testbench		ALL	
	3	Program LEDs/motor-driver board		Jonathan	
	4	Assemble and test all parts		ALL	
Apr	1	Debug implementation issues		ALL	Presentation and FINAL Deliveroid assembly
	2	Project Demo + Presentation Event		ALL	
	3				
	4
