Evaluation Guide (Read Carefully):

1. For each evaluation criterion (A and B), you are given an amount of money in multiple of \$100's according to the number of Non-Senior students in your team. For example, if a team has two Non-Senior students, you'd have $\$100 \times 2 = \200 . It would be \$400 if you have 4 Non-Senior students in your team.
2. Now you are distributing the money as bonus to the Non-Senior team members according to their performance [by Performance Criteria A and B] in the team project. The sum of the money distributed to each Non-Senior member at each column must be the same as the money you received by the rule 1 above.
