

Arduino Project

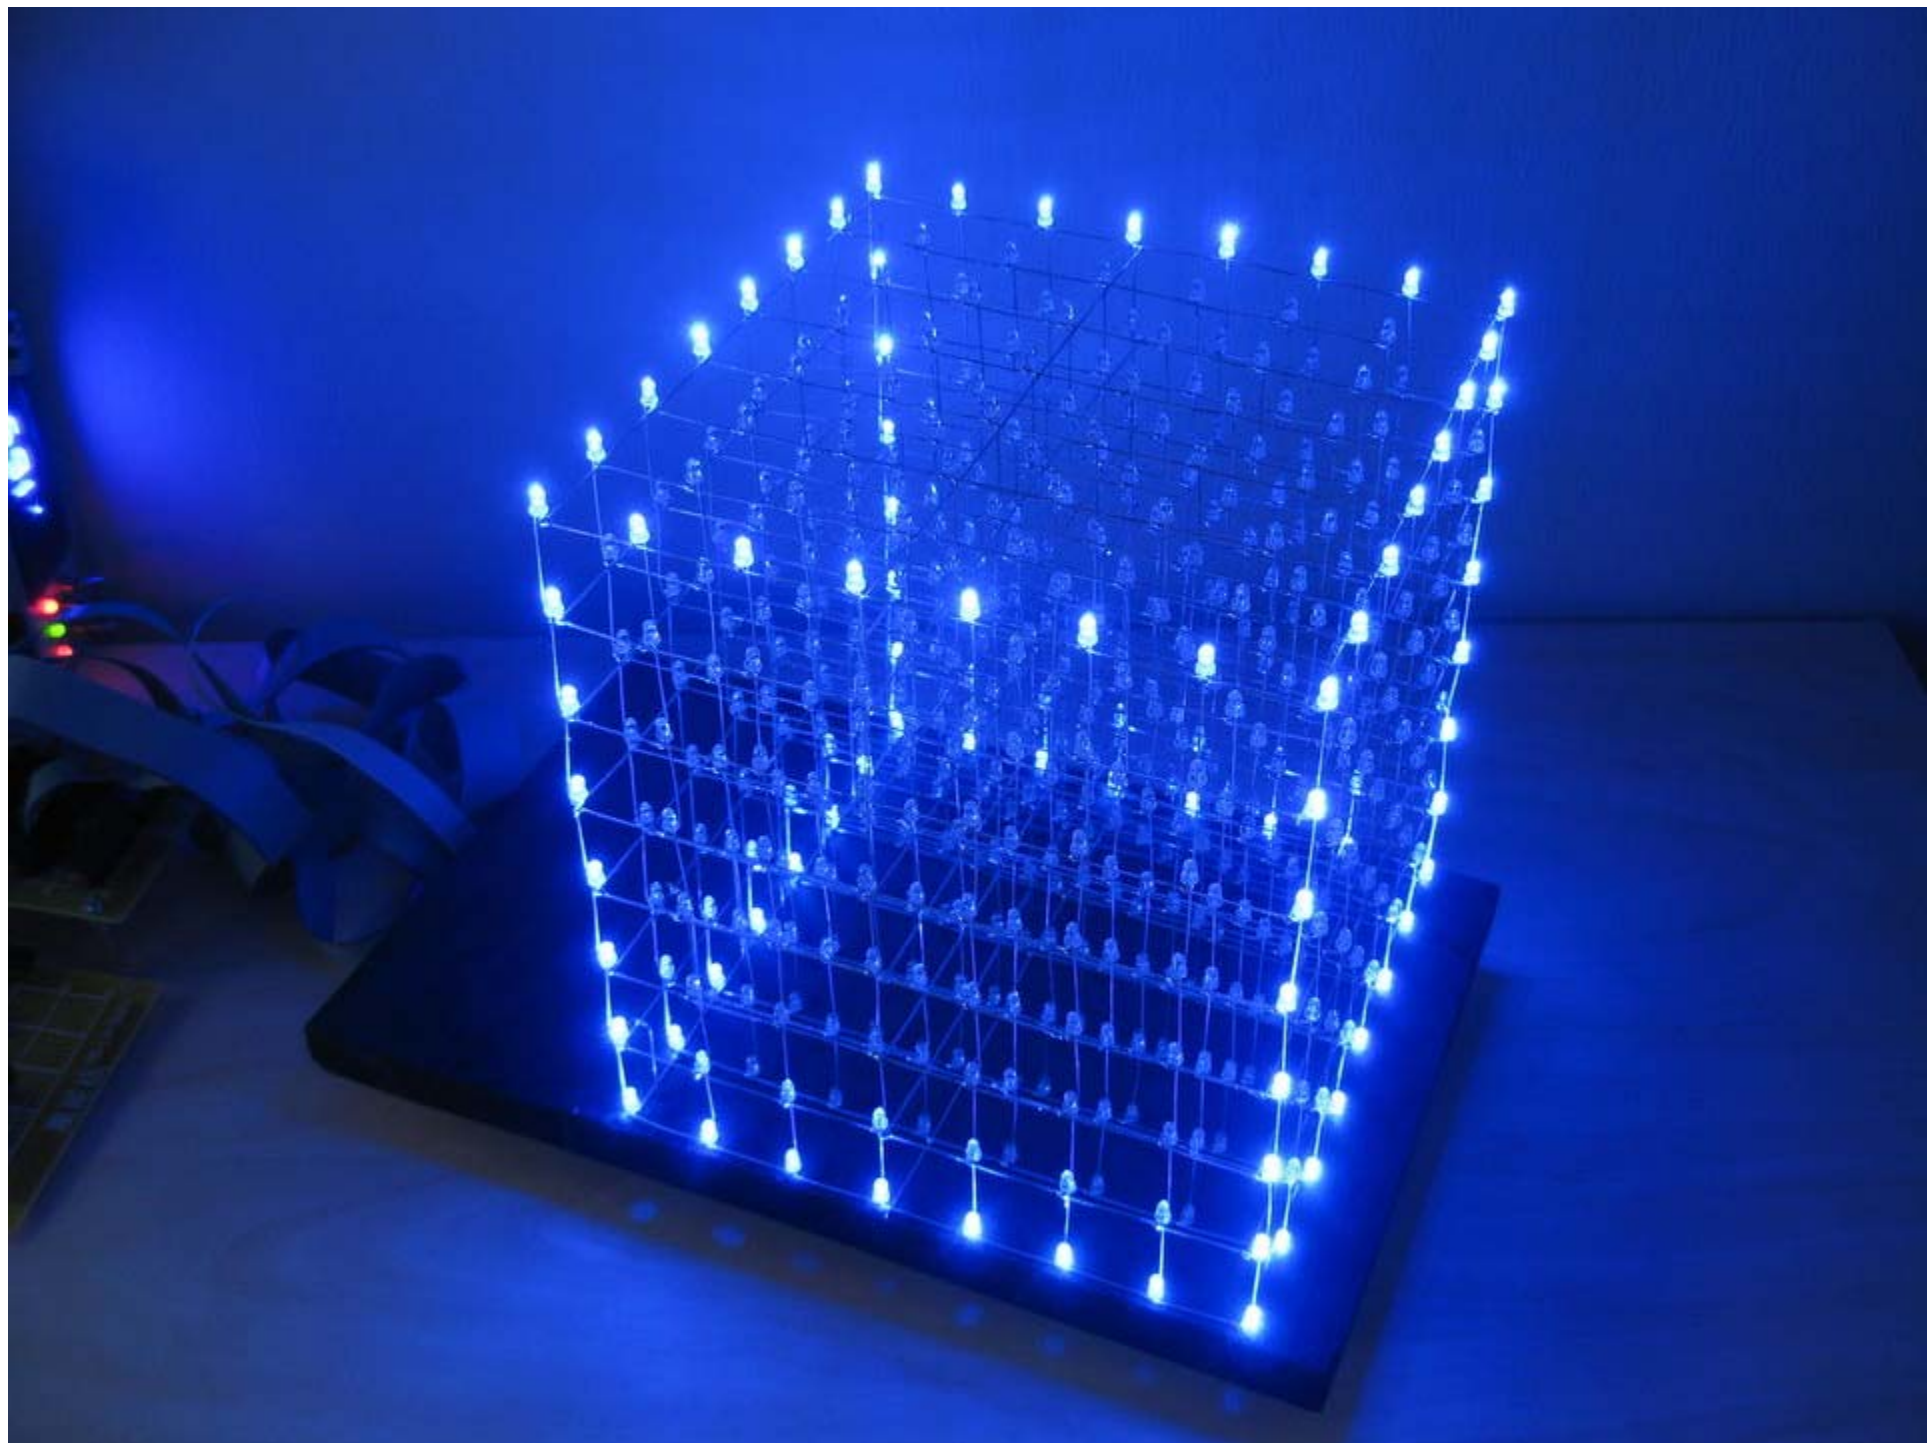

By
Ibukun Osei
Raymond Jones

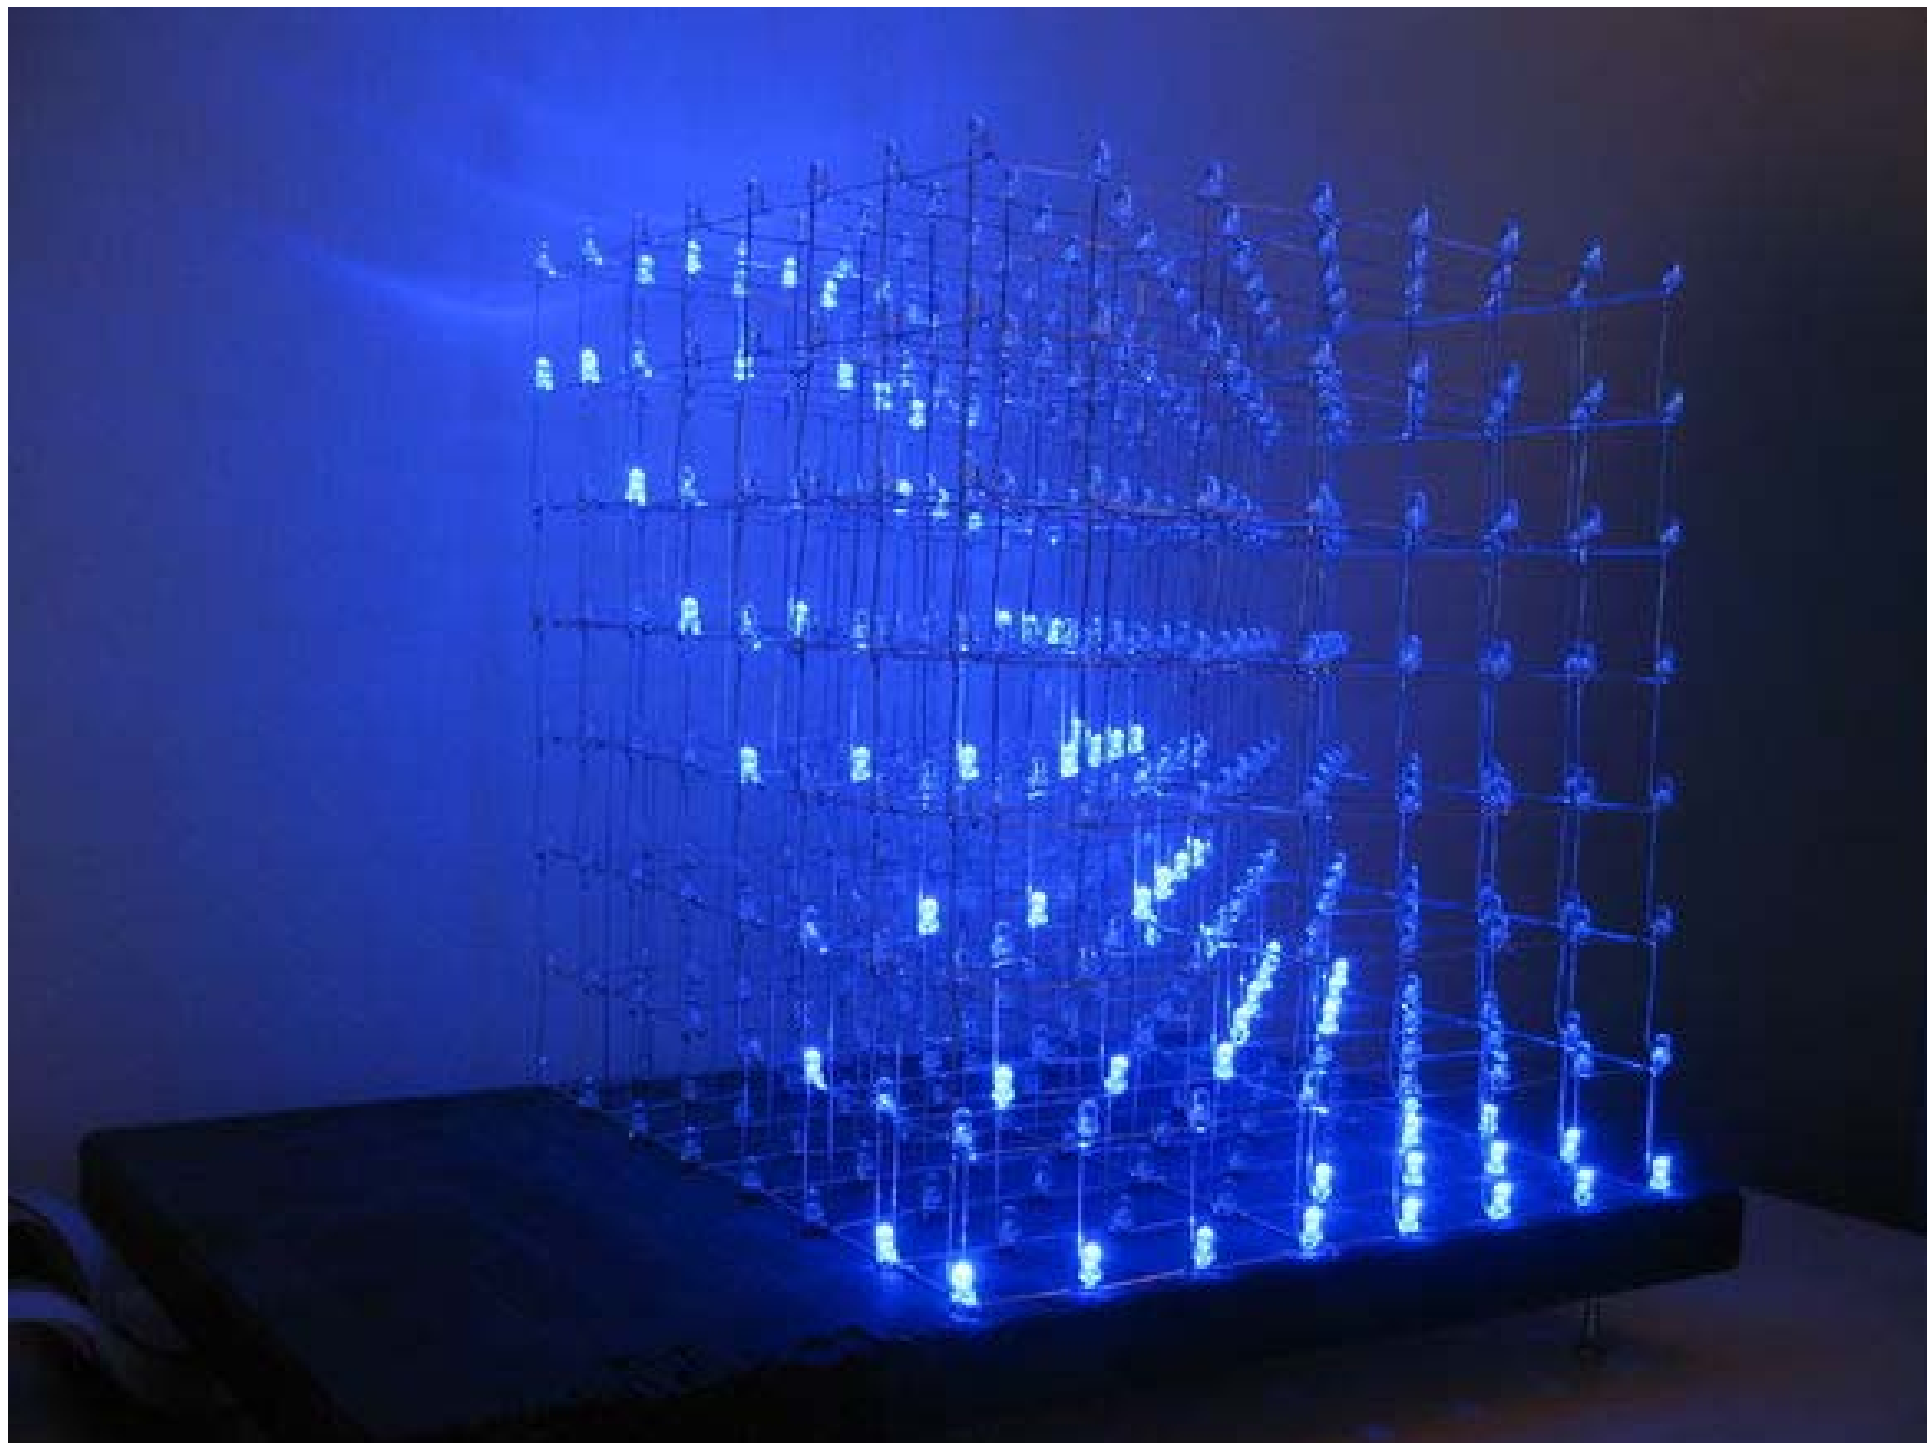

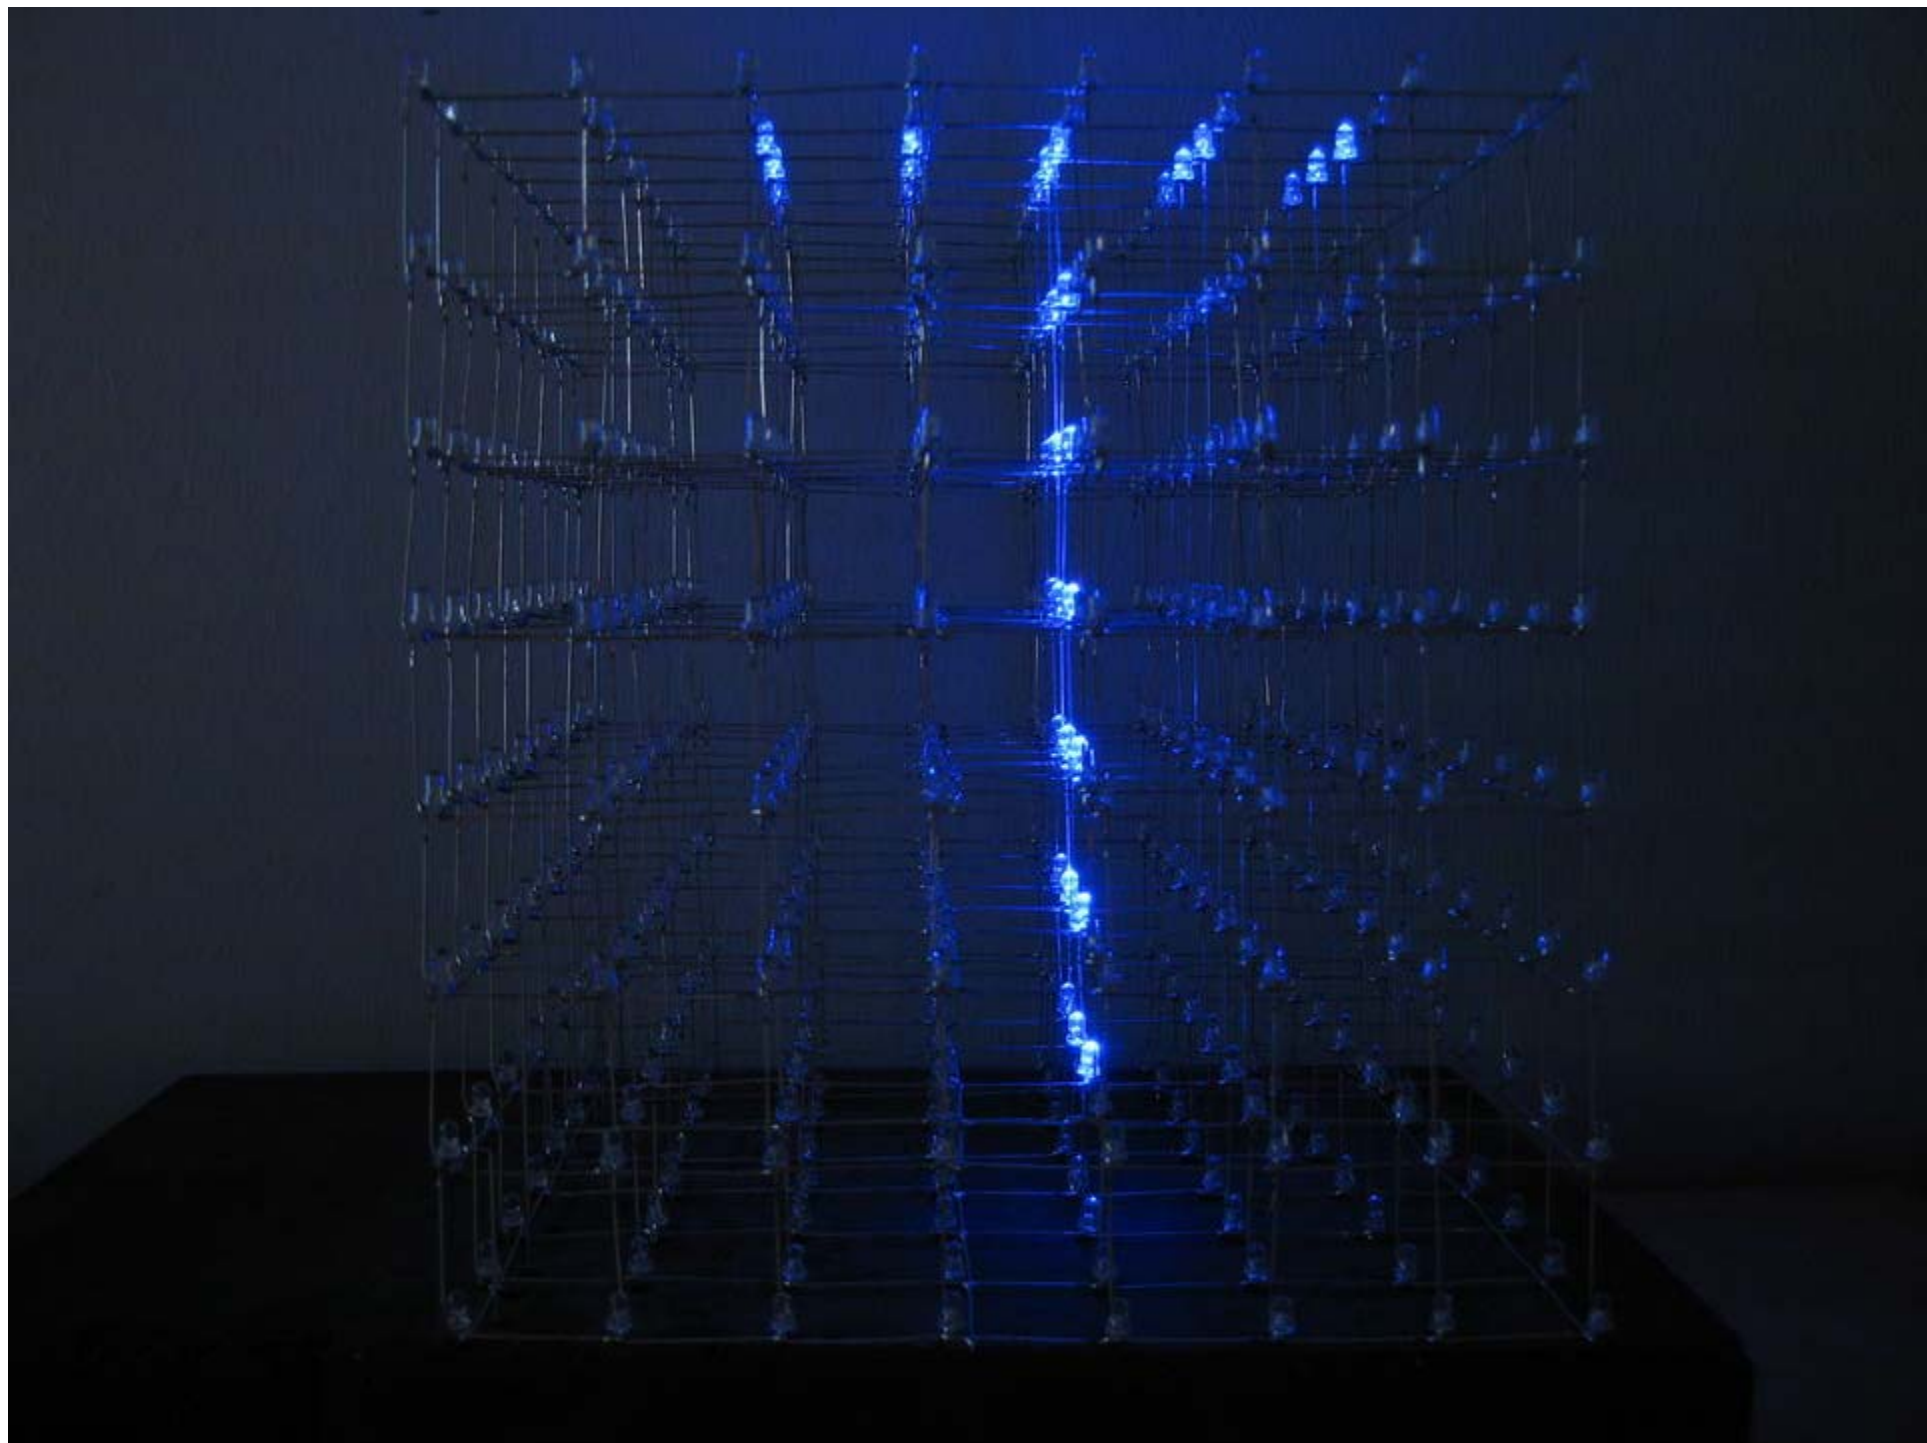

Objective

To illustrate the **capabilities** of the Arduino UNO.

How It Works

Create Interesting 3-D Patterns and Colorful Messages

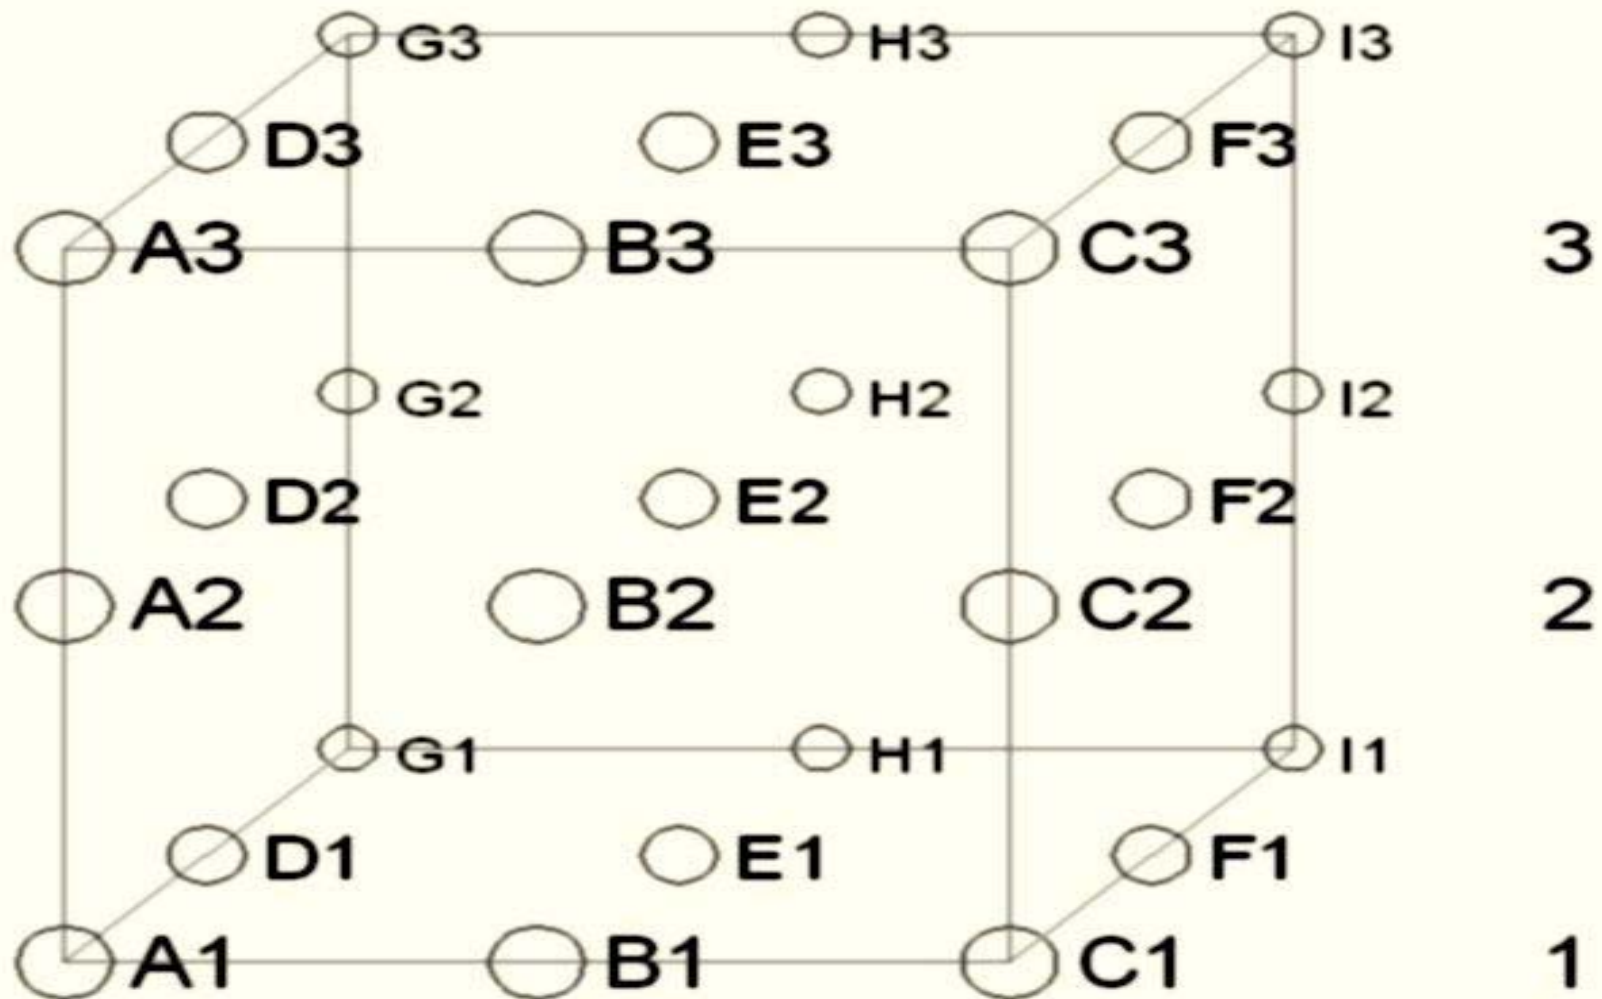

How Ours Works

1. Roll Call
2. Light Each Level
3. Light Each Row
4. Light Each Plane
5. Light Random LED
6. Random Circle Column Drop
7. Circle Around at Random Level
8. Light Each Face
9. Diamond and Box Pattern

How Ours Works

Conclusion

The Arduino UNO...is numero UNO!!!
